

CAPBs® sens GS40

Gas sniffer

Description

Optimized for refrigeration and air-conditioning service, the sensor unit enables fast detection of halogenated refrigerants. Based on R134a calibration, it provides clear visual and audible indications, helping technicians quickly identify leak sources and minimize refrigerant losses. Its flexible probe arm enables easy access to confined installation areas, while sensor's anti-poisoning protection ensures reliable performance and a long service life.

Application

- Gas leak detection
- Detection of halogenated refrigerants in gas lines, as well as at connection points and fittings

Technical specifications

Dimensions H x W x D	290 x 42 x 35 mm
Measuring range	3 / 30 g/a (R134a) in compliance with EN 14624
Resolution	0.01 %
Part no.	M090 33 14 10
